Restoration Products

To be used on Fabric, Vinyl & Leather

Request a Personal Demonstration

SOMAY-Q colors can be applied to virtually any surface. Changes or renews color on:

Vinyl
Leather
Fabric,
Carpet
Velour
Flexible and Rigid Plastics

SOMAY-Q colors is a high performance, durable and weather proof NANO coating that will change the color of most substrates without changing or altering the original texture.

SOMAY-Q colors was engineered to adhere to almost all automotive interior substrates such as:

Leather, vinyl, Plastic and metal as well as most fabrics

APPLICATIONS:

Use SOMAY-Q colors to restore or customize your interior

vinyl seats

dash boards

Door

panels

shifter boots and consoles

on any type of vehicle such as: trains, buses, ship, boats, airplanes and home.

Engineered with our state of the art adhesion promoter for maximum adhesion, it won't crack, peel or chip

SOMAY-Q colors uses the latest NANO technology based ingredients and binders.

For this reason, you can use the object painted within a few minutes of being painted as it dries extremely quick, it won't crack, peel or De-laminate from the painted substrate. You can pull, twist or rub within minutes of application without damaging the newly painted substrate (Item)
